Art Unit: 2823

Applicant's election of the first species in the response filed 12/30/02 is acknowledged. Claims 1-10 and 12 read on the elected species. Claims 8-10 are examined with the elected species herein. Claims 11 and 13 are drawn to non-elected species.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 8, it is unclear what is recited through use of "main". In line 8, it is unclear what is recited through use of "light absorbing end of silicon".

In claim 8, it is confusing to recite that "metal nitride" is a metal.

In claim 9, there is no antecedent basis for "unreacted part of the metal film". In line 10, it is unclear what is recited through use of "main". In lines 10 and 11, it is unclear what is recited through use of "light absorbing end of silicon".

In claim 10, - - group consisting of - - should replace "group comprising". In line 2, "titanium" is misspelled.

Art Unit: 2823

Claims limited to the processes of claims 1,8 and 9 and further including the following limitation would be allowable and would overcome the rejections over 35 U.S.C. § 112 above:

- - wherein during the second heating process the silicide layer is converted from a mono-silicide to a di-silicide layer - - .

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
